# CYRIL MARCUS

Full-stack Developer

## PROFESSIONAL PROFILE

A Malaysian national with 3 years' experience in aviation/administration. I am also a freelance web developer (full-stack on MERN) and currently shifting career full time to full-stack developer. Came from science research background, I am also a self-taught programmer and web developer. Teaching and learning myself on programming and its core fundamental back in 2016 until now. Always try to better myself and learn new things while accomplishing in otherwise challenging task. Currently based in Dubai.

## EXPERIENCES

Full-stack developer (Freelance)

Feb 2018 - CURRENT

This is more of a learning/work process that I did while learning the language on my own. While learning, I've done learning project from online platform such as Udemy, freecodecamp, Traversy Media, and also from coding bootcamp in Dubai, Astrolabs. Currently proficient in MERN stack, my full recent project was Initium, co-author with Sophie Swart, a fellow developer.

(SENIOR)CUSTOMER SERVICE SPECIALIST | EMIRATES GROUP

JUNE 2015 - CURRENT

Provide ground supports, customer-related services, and various technical task. Various task that are performed daily/weekly, and events or project done:

- Routine GH, pre/post flight operation handling.
- Ticketing/Reservation.
- Assist in company product development.
- Liaise in-between department for project development in airport operations.
- Addressing issues and handling customers' requests.
- Maintaining appropriate record and filing system.

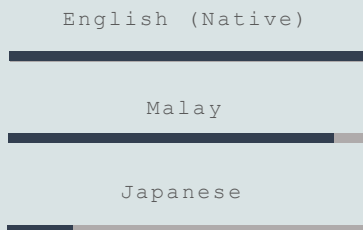

**CYRIL MARCUS**
